

**Amy Pontillo**  
**Manager of IT Systems and Services, Manufacturer & Business Association**  
**NAUG Board of Directors – President**

Amy is the Manager of IT Systems and Services for the Erie, Pennsylvania based Manufacturer & Business Association (MBA), the largest regional Association of its kind in the United States.

Amy develops, designs and teaches commercial software and proprietary computer applications. In addition, she manages and maintains the Associations IT systems and provides training and technical support for all aspects of the Associations communication systems including the GoMembers database system.

Amy acts as technical director for all association special events. She is also the software technician for the Slomski Group which provides technical production services to major conferences throughout the United States.

Her awards and achievements include the 2013 Apteian Edge Award for GoMembers implementation. She is the current 2015/2016 NAUG Board President. When not working or volunteering her time she cares for her beloved dog Daisy and her very weird cat Cheech.
