

John Langlais
Project Manager, Apteau
NAUG Board - Apteau Representative

John Langlais is a Project Manager for Apteau and has worked with the GoMembers products since 1999. John has extensive experience in systems and technology and spent his career prior to gomembers dividing his responsibilities between accounting/finance and information systems.

Early in John's career he became involved in mainframe/minicomputer systems while working as a retail controller. He managed corporate projects helping to implement various accounting systems. As a law office administrator in the late 80's and the VP of Finance and Administration at a trade association in the 90's John implemented a variety of IT systems. John has had involvement in non-profit associations throughout his career, serving in volunteer capacities as board member, secretary, treasurer, and president.

Beginning in 1999 John worked as a business analyst for GoMembers and most recently has served as a project manager. Having come to GoMembers from a position with one of its customers, John understands the member-based environment and the challenges of system implementation, operation, staffing, and training.
