

Stacy Kalokitis
Systems Administrator, Metal Powder Industries Federation
NAUG Board of Directors - Secretary

The Metal Powder Industries Federation (MPIF) is a “not-for-profit association” formed by the Powder Metallurgy industry to advance the interests of the metal powder producing and consuming industries.

As its name states, it is a federation of trade associations—six in all—that are concerned with some aspect of powder metallurgy, metal powders, or particulate materials.

Stacy is responsible for all of the information and data processing and database development needs of MPIF and its members. She is involved in all aspects of the organization including membership, meetings, order processing, accounting and all web related services.

Stacy attended Rider University, Lawrenceville, NJ studying Business Management.
